

Dr. Robertas Bunevicius is a physician educated in psychiatry, endocrinology, and psychophysiology. He had run his training in Lithuania, Russia and U.S.A. At present he holds an office of the Director of the Institute of Psychophysiology and Rehabilitation, as well as a position of professor of psychiatry at the Department of Psychiatry of the Kaunas University of Medicine in Kaunas, Lithuania.

Dr. Bunevicius had defended Ph.D. thesis in 1993, and Doctor habilitus (D.Sc.) thesis in 1999. His research interest covers interaction of mental state with endocrine function and immunity, as well as reactivity to stress in psychiatric and cardiac patients. Dr. Bunevicius has published papers in medical journals with high impact factor, including first authorship in the New England Journal of Medicine. He made contribution for several textbooks as well as for development of new diagnostic and therapeutic methods in psychiatry and endocrinology.

For his research contributions several national and international award were presented to Dr. Bunevicius including Award of the National Lithuanian Foundation (Vilnius, 1990), Award of the European College of Neuropsychopharmacology (Venice, Italy, 1995), Fulbright Award (Washington, D.C, 1997), Prize of the World Federation of Societies of Biological Psychiatry (Florence, Italy, 1999), and Award of the International Society of Psychoneuroendocrinology (Montreal, Canada, 2005).

Dr. Bunevicius is involved in the activities of national and international scientific societies. He is a president of the Lithuanian Society of Biological psychiatry, a Secretary-Treasurer of the World Federation of Societies of Biological Psychiatry (WFSBP) and a member of the Executive Committee of the International Neuropsychiatric Association (INA). Dr. Bunevicius have organized several national and international scientific meetings, delivered lectures and reports as invited speaker at numerous conventions.
