

Prague, WFSBP: Thursday, 2 June 2011; 08.00-09.30, South Hall

**S-061: Symposium of the Task Force of Genetics of the WFSBP:
Individualized medicine: Focus on pharmacogenetics**

Julien Mendlewicz, Belgium (Chair)
Jorge Ospina, Colombia (Co-Chair)

Pierandrea Muglia, Denmark: Genetics and drug discovery in psychiatry
Stephan Claes, Belgium: HPA axis function in psychiatric disorders: genetic studies
Rainald Mössner, Germany: Pharmacogenetics: New studies on response to antipsychotics
James Kennedy, Canada: Pharmacogenetics: New studies on side effects of antipsychotics

Prague, WFSBP: Thursday, 2 June 2011; 16.00-17.30, Meeting Hall V

**S-081: Symposium of the Task Force of Genetics of the WFSBP:
Genetic overlap between schizophrenia and affective disorders**

Dan Rujescu, Germany (Chair)
Sven Cichon, Germany (Co-Chair)

Nicholas Craddock, UK: Cross-phenotype analyses of genome wide association studies
Frank Bellivier, France: Phenotypes of bipolar disorder: Genome wide association studies
Lynn De Lisi, USA: Brain imaging phenotypes
Michael Gill, Ireland: Genetics of neurocognitive phenotypes
